Double Gold : 1870s Mining and Farming Diaries with a History of Mount Franklin / Janet MacDonald & Garry Powell (2008)

Eleven years in the writing, and many more in the research, Double Gold is centred around the extraordinary 1870s farming diaries of Henry Prichard Parry, who settled at Mount Franklin, Victoria, Australia and farmed with his cousin William Roberts. The authors have provided much supporting material about the lives of the two cousins and the history of the district.
